EDUCATION

National Institute of Technology, Srinagar <i>B.Tech in Computer Science & Engineering</i>	Aug 2023 – Present CGPA: 8.11
Nirmal Happy Sr. Sec. School, Hindaun City <i>Board of Secondary Education, Rajasthan</i>	2023 Percentage: 87%
Shri Om Sr. Sec. School, Dhindhora <i>Board of Secondary Education, Rajasthan</i>	2021 Percentage: 98%

EXPERIENCE

AI Research Intern <i>Defence Institute of Advanced Technology (DIAT), Pune</i>	Dec 2025 – Jan 2026 GitHub
- Engineered a 3D AI-powered avatar using Unreal Engine and MetaHuman. - Implemented a RAG-based system using LLMs and vector embeddings for context-aware responses. - Built backend APIs using FastAPI for semantic search and real-time query processing. - Integrated optimized 3D GLB models for real-time browser-based interaction. - Improved response accuracy and reduced hallucinations using semantic retrieval.	
SQL Developer Intern <i>Elevate Labs, Bengaluru</i>	Jan 2026 – Apr 2026 Offer Letter
- Wrote and optimized SQL queries for data analysis on real-world datasets. - Performed data cleaning, transformation, and reporting. - Worked on database design and query optimization. - Applied performance tuning techniques to improve query efficiency.	

PROJECTS

Task Management App React, Node.js, Express, MongoDB, JWT	Dec 2025 – Feb 2026 GitHub
- Built a full-stack task management application with secure user authentication using JWT. - Built RESTful APIs using Node.js and Express for task and user management. - Integrated MongoDB with Mongoose for efficient data handling and storage. - Designed responsive frontend using React, Tailwind CSS, and Axios for seamless interaction.	
Kota Metro Route Planner HTML, CSS, JavaScript, Graph Algorithms (DFS)	Nov 2025 GitHub
- Developed an interactive metro navigation system to find optimal routes between stations. - Implemented graph-based route discovery using Depth-First Search (DFS). - Provided multiple route suggestions based on travel time, fare, and interchanges. - Designed a responsive web interface for seamless user interaction across devices.	

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: React, Node.js, Express.js, Tailwind CSS, NumPy, Pandas
Databases: MongoDB, MySQL, SQLite
Tools & Technologies: Git, GitHub, REST APIs, JWT Authentication, FastAPI
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Time Management

ACHIEVEMENTS

- Competitive Programming:** Achieved 1700+ contest rating on LeetCode, demonstrating strong problem-solving and algorithmic skills.
- Solved 500+ DSA problems on [LeetCode](#) and [GeeksforGeeks](#).
